

HSSR

HEALTH • SAFETY • SECURITY • RISK

Consulting Limited

If you're facing or, are already in a perfect storm struggling to manage and control your;

- **health and safety management systems,**
- **identifying or controlling critical or operational risk,**
- **growing an cohesive safety culture,**
- **experiencing repeated incidents,**
- **assessing security and the protection of people, property and Assets.**

KM HSSR Consulting is a best-practice, no fuss consultancy with a solutions driven approach to help you calm any potential storm bearing down on your Organisation across Australasia.

MISSION STATEMENT

Deliver world-class, professional best practice and ethical services and advice to help your organisation and transform compliance into capability.

VALUES

- We act with professionalism, ethics, integrity, and unwavering good intent.
- We respect and uphold the unique values, needs, and expectations of every client.
- We partner with clients through a collaborative, open, and respectful approach.
- We only engage reputable, reliable, and respected industry partners, to assist in formulating the right outcomes clients are seeking.
- We deliver risk based solutions grounded thinking and highly experienced practical applications.

Health Safety & Risk Services

Services Provided:

- Outcome driven Health & Safety Management Systems delivering continuous improvement.
- Solutions to identify and control critical & operational risks.
- A Safety Differently, based on HOP and AREO principals.
- Business Continuity and Emergency Management Planning.
- Incident Cause Analysis Methodology (ICAM) incident investigations.
- Safety Management Systems auditing.

We build safety management systems with a risk based approach to safety that drives compliance into capability, and from process to outcomes driven.

Grass roots methodologies to identify and understand true critical risks derived from operations, with a defendable measure to demonstrate effective & efficient risk controls.

The safety differently principals will put the focus for safety back in the hands of those undertaking the daily tasks by ensuring work as imagined equals work as done.

We specialise in leading ICAM investigations that impartially seek out the systemic drivers that contribute to the true root causes of a safety incident. “Mistakes happen, but blame fixes nothing”.

Security & Cultural Asset Protection

Services Provided

- A holistic non proprietary pragmatic approach to security and asset risk protection.
- Specialist guidance and advice in the protection of cultural assets.
- Security planning for the Transport of cultural assets, both domestic or international.
- Securing the protection and wellbeing of your people, property and assets in public spaces.
- Protecting Crowded Places in an unsettled world.
- Access to specialists in assessing the risks and security planning for Crowded Places Venues.
- Crowded Places and cultural asset protection competency training.

Protecting museums, galleries, cultural venues, and historical sites is something we all should support, nationally and internationally.

Unfortunately, the cultural heritage sectors face several challenges caused by social, environmental, and adversarial threats. The ability to proactively protect our cultural assets through the delivery of professional services will help reduce the risks we are facing.

Supply of utilities and associated public infrastructure are also at significant risk. Water, power, gas, fuel & communication services are all vulnerable and expose our community wellbeing and security through adversarial threat.

KM HSSR has more than 45yrs expertise and when combined with that of their business partners are very well placed to assist in protecting your assets.
